**NOW THEREFORE BE IT ORDAINED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF EAST DUNDEE, COOK AND KANE COUNTIES, ILLINOIS, AS FOLLOWS:**

**Section One. Comprehensive Plan.**

Recommended Land Use for Development Area A (page 49), which presently reads:

“Development Area A” represents the majority of the undeveloped land in the eastern portion of the Eastern Growth Area (EGA) north of Route 72. At du/acres, this 105 acre area will produce roughly 340 dwelling units, the greatest number within the EGA. The location of this Development Area represents an attempt to maximize the locational benefit of the lake as an amenity, while relating to the surrounding land uses.

To be amended as follows:

Recommended as Planned Development Residential, that portion of “Development Area A” generally located to the north of the

Township Cemetery represents an opportunity for development as single family residential.

Recommended Land Use for Development Area H (page 50), which presently reads:

“This 28 acre site, located just south of the lake, can be expected to yield roughly 225 dwelling unites. This development area also enjoys quick access to the lakes, parks and elementary school, and provides transition between the higher intensity industrial uses to the east and the single family residential uses to the west.”

To be amended to read as follows:

This site, generally located to the south of the lake, may be expected to yield dwelling units. This development area also potentially enjoys access to lakes, parks and elementary schools, and provides transition from the higher industrial and business uses to the south and southwest.

Recommended Modification to Conservation Area (page 52), which presently reads:

“This plan calls for the conservation and improvement of over 32 acres of park space that will surround the lake. This open space should be tied to bicycle trails though greenways, and safe on-street routes.”

To be amended to read as follows:

This plan calls for conservation and improvement of substantial acreage that will surround the lake. This area will not extend toward the higher industrial and business uses to the south, and will be utilized primarily by the neighboring residential communities.

Deletion of Development Area K (page 51), which presently reads:

“Located east of the Dundee Township Cemetery and north of Route 72, this 17 acre site has the potential to yield as much as 180,700 square feet of commercial space. This scale is equivalent to that of a typical big box (such as Wal-Mart). However, the site is better suited for a series of smaller clusters of commercial office uses.”

Creation of new Development Area T, consisting of approximately 119 acres, located north of Higgins Road (otherwise known as Route 72 or Main Street) to the east of Dundee Avenue (otherwise known as Route 215) to the south of Dundee Road (otherwise known as Route 68) and encompassing the existing road, all within the Village of East Dundee, Illinois. Suggested land use to read as follows:

This approximately 119 acre site will be developed with a multitude of business, industrial, retail or similar uses. This site will utilize the existing traffic pattern along Illinois Route 72.
