(2) *Use-specific standards.* The standards listed below are specific to each use as indicated and are in addition to all other standards of the district in which the use is located. In the event of a conflict between these standards and those listed for the district, the more restrictive standards shall apply.

(a) *Mining of clay, gravel, peat, sand and stone and the structures incidental to loading same.*

1. Includes processing, screening and washing yards including plants for crushing and mixing aggregate, the principal ingredient of which is gravel mined on the premises.

2. Uses shall be subject to execution by the mining operator, satisfactory to the Village Board, of an agreement that upon cessation of the mining operations:

a. All mining and mixing apparatus and equipment and other accessory buildings and structures shall be removed from the premises;

b. As the mining operations progress, the mined land shall be restored in an orderly fashion to usable condition; and

c. Upon cessation of mining activities for 180 days, the special use shall expire.

1. Strip mines, stone quarries, gravel mines, saw mills, and all other uses, operations and endeavors which do, or are likely to, produce loud and disturbing noises nor any other machinery, equipment, explosives and utensils incidental to the operation shall be used or operated on any Sunday or legal holiday, as defined by the Illinois Compiled Statutes, nor on any weekday, except after the hour of 6:00 a.m. and before the hour of 9:00 p.m.

2. Exceptions to these restrictions may be granted by the Village Board only upon a showing that, within the specific times for which exceptions are requested, the interests of the village will not be substantially compromised.

(b) *Senior citizen dwellings.*

1. No senior citizen development shall be located on a lot of less than 30,000 square feet in area.

2. A senior citizen development may consist of one or more principal buildings otherwise complying with the provisions of the zoning district and special use.

3. If the senior citizen development has on-site, common use dining and/or recreation facilities, the density for the associated multi-family units shall not exceed two times the base density for the zoning classification.

4. Each dwelling unit located in a senior citizen development shall be occupied only by senior citizens, which for the purposes of this chapter shall mean any individual who is at least 55 years of age, or any unrelated family, all the members of which are at least 55 years of age, or any related family, one spouse of which is at least 55 years of age (except that there may be provided not more than two dwelling units for members of the development staff, regardless of age); provided, however, not to exceed 10% of the units in a senior citizen multiple-family dwelling development may be occupied by physically handicapped persons of any age.

5. For the purpose of this section, the following definition shall apply unless the context clearly indicates or requires a different meaning:

HANDICAPPED PERSON. A person having an impairment which:

- a. Is expected to be of long, continued and indefinite duration;
- b. Substantially impedes his or her ability to live independently; and
- c. Is of a nature that such disability could be improved by more suitable housing conditions.

6. The development shall have recorded against the title to the underlying land, covenants running with the land complying with the Illinois Human Rights Act, P.A. 90-581, ILCS Chapter 775, Act 5, §§ 3-101 et seq., and the Fair Housing Act, 42 USC § 3607, as they may be amended from time to time, restricting the dwelling units within the development to "housing for older persons" as defined therein.

7. Variations permitted. A senior citizen development and the buildings therein shall be so designed as to accommodate the specific needs and serve the convenience of the residents. To this end, the developer is encouraged to increase the open area, eliminate any unnecessary parking space, and in general, so plan the development as to serve the residents to the greatest degree possible consistent with needs of the community.

a. The special use permit may allow an increase of up to one square foot in lot coverage by the principal building or buildings for each additional square foot of open space provided beyond the minimum requirements of the district.

b. The bulk regulations and height regulations of the district may be modified by the special use permit to serve the intent and purpose of this chapter, including the desire to provide adequate senior citizen dwellings for the residents of the village.

c. The regulations of the district concerning off-street parking spaces may be modified by the provisions of the special use permit provided that there is furnished a number of off-street parking spaces to serve the reasonable requirements of those residents who possess automobiles, their visitors and delivery vehicles; provided further, that in no event shall the number of off-street parking spaces be reduced to a number less than 50% of the number of dwelling units. It is the purpose of this provision to authorize a reduced number of parking spaces, thereby enabling the developer to furnish more open space for the use and enjoyment of the residents of the development.

d. There may be located in any senior citizen development as accessory uses, retail business and personal service facilities designed and intended for the exclusive use and convenience of the residents thereof; provided, the shops occupy not more than 5% of the total floor area of the building or buildings in the development; provided further, there is no business sign or pedestrian entrance for the shops located on or at the exterior of any building in the development.

e. The floor area ratio may be increased to a number not to exceed 0.6.

8. Inspections. The village shall have the right, on reasonable notice, to inspect the records of the development to verify that the provisions of this chapter and of the special use permit are being fulfilled.

(c) *Public utility and public service use.*

1. Uses and facilities include: electric sub-stations and booster stations; telephone exchanges, repeater stations, micro-wave relay towers and stations, antenna towers and other outdoor equipment essential to the operation of the exchange in the interest of the public convenience; potable water well head stations, well separators, pumping stations, water filtration plants, reservoirs, and storage tanks and towers; natural gas regulator stations and similar above the ground facilities customarily used for the distribution, transmission or storage of natural gas as a part of the operation of a public utility; and satellite dishes as accessory to any of the above.

2. The use shall be located more than 200 feet from the boundary of a residential use.

3. Natural gas equipment and other installations may be in completely enclosed buildings or in the open, but along with electric substations and booster stations, must be completely enclosed behind two-inch or less mesh chainlink fence or equal, no less than six feet in height.

(d) *Roadside stands.*

1. Limited to the sale of produce and poultry grown and raised on or in the immediate area of the premises; does not include live animals.
2. The stand shall not contain more than 600 square feet of floor area.
3. The stand shall provide facilities for vehicular ingress and egress and adequate off-street parking approved by the Building Inspector.

(e) *Home occupations.*

1. Permitted home occupations may include any of the following:
 - a. Art studio;
 - b. Dressmaking;
 - c. Professional offices of a clergyman, physician, dentist, lawyer, architect, engineer or accountant, but limited to one employee at any one time;
 - d. Teaching, including musical instruments or dancing, but not limited to one pupil at a time; and
 - e. Similar and compatible uses to those listed as permitted home occupations.
2. Permitted home occupations shall not extend to any use including or similar, but not limited to, the following:

- a. The operation of any wholesale or retail business or service unless conducted entirely by mail or telephone and does not involve the sale, repair, receipt or delivery of merchandise on the premises;
- b. Any manufacturing or processing of goods, materials or products;
- c. A repair shop or service establishment of any kind operating on or from the premises;
- d. A clinic or hospital;
- e. A barber shop or beauty parlor; and
- f. A stable or kennel.
