(2) *Use-specific requirements.* The following uses shall comply with all listed requirements in addition to all other requirements specified in this chapter. In the event of a conflict between a requirement listed hereunder and that of another section of this chapter, the more restrictive requirement shall prevail.

(a) *Motor vehicle impoundment yards.*

1. Areas utilized for motor vehicle yards shall comply with all principal structure setbacks requirements of the zoning district.
2. Areas utilized for motor vehicle yards shall be provided with a permanent durable and dustless surface.
3. Areas utilized for motor vehicle impoundment yards shall be lit from dusk to dawn at an intensity of not less than 1.0 foot candles nor greater than 1.5 foot candles using poles no higher than 25 feet and cutoff fixtures that direct light downward such that the intensity of light at the property line does not exceed 0.5 foot candles.
4. Areas utilized for motor vehicle impoundment yards shall be completely enclosed with a solid wall or fence of not more than eight feet in height. No chain link or mesh type of fence with inserted screening slats shall be used to comply with the provisions of this section.
5. No vehicle shall be stored longer than 60 days provided vehicles subject to seizure or impoundment orders shall be exempt from any such limitation.

(b) *Vehicle towing establishment.*

1. All towing vehicles and equipment must be stored inside a building or in areas with a paved, dustless surface that complies with all principal structure setback requirements of the zoning district. In no case shall towing vehicles be stored closer to the street than the front wall of the primary structure.

(c) *Public utility and public service use.*

1. Uses and facilities include: electric sub-stations and booster stations; telephone exchanges, repeater stations, micro-wave relay towers and stations, antenna towers and other outdoor equipment essential to the operation of the exchange in the interest of the public convenience; potable water well head stations, well separators, pumping stations, water filtration plants, reservoirs, and storage tanks and towers; natural gas regulator stations and similar above the ground facilities customarily used for the distribution, transmission or storage of natural gas as a part of the operation of a public utility; and satellite dishes as accessory to any of the above.
2. The use shall be located more than 200 feet from the boundary of a residential use.
3. Natural gas equipment and other installations may be in completely enclosed buildings or in the open, but along with electric substations and booster stations, must be completely enclosed behind two-inch or less mesh chainlink fence or equal, no less than six feet in height.

(d) *Reserved.*

(e) *Accessory commercial operations yard.*

1. Shall be accessory to an authorized and licensed principal use located within the Village limits of the Village of East Dundee. If the principal use ceases to operate or relocates out of the Village, the accessory commercial operations yard shall be immediately vacated and all equipment and materials removed.
2. Areas utilized for accessory commercial operations yards shall comply with all principal structure setback requirements of the zoning district.

3. Areas utilized for accessory commercial operations yards shall be provided with a permanent durable and dustless surface.\

4. Areas utilized for accessory commercial operations yards shall be completely enclosed and screened with a solid wall or fence of not more than twelve feet in height and/or a berm or evergreen plants of any height. No materials or equipment shall be stored at a height greater than the height of the screening; except that when there is no reasonable alternative, material or equipment may be stored at a height greater than the height of the screening provided that the area utilized for an accessory commercial operations yard is setback a minimum of one additional linear foot from all lot lines for each one foot of storage height above the screening. No chain link or mesh type of fence with inserted screening slats shall be used to comply with the screening provisions of this section.

(B) *Additional use restrictions.*

(1) Unless specifically provided for otherwise in 157.065(A), no lot, parcel or tract of land shall be used and no building or structure shall be erected, altered or remodeled for any of the following uses: abattoirs; acid manufacture; arsenals; crematories; creosote treatment or manufacture; fat rendering; fertilizer manufacture; fireworks or explosive manufacture or storage; dumping or reduction of garbage; dead animals; offal; or refuse; ore reduction, petroleum processing or refining; nitrocellulose manufacture; synthetic polymers manufacture; gutta perca manufacture or treatment; salt works; sauerkraut manufacture; soap manufacture; smelters; stock yard or slaughter of animals or fowls; tallow, grease or lard manufacture or treatment; tanning, curing, or storage of rawhides or skins; tar distillation or manufacture; or junk yards.

(2) Reserved.

(3) No activities involving the storage, utilization or manufacture of materials or products which decompose by detonation shall be permitted, except such as specifically licensed by the village and which may include but not be confined to: all primary explosives, such as lead azide, lead styphnate, and tetracene; and all high explosives, such as TNT, RDX, HMX, PE TN and picric acid, propellants and components thereof such as nitrocellulose, black powder, boron hydrides, hydrazine and its derivatives; pyrotechnics and fireworks such as magnesium powder, potassium chlorate and potassium nitrate; blasting explosives such as dynamite and nitroglycerine; unstable compounds such as acetylides, tetrazoles, perchloric acid, perchlorates, chlorates, hydrogen peroxide in concentrations greater than 35% and nuclear fuels, fissionable materials and products and reactor elements such as Uranium 235 and Plutonium 239.
