

SIGN UP FOR EMERGENCY ALERTS & LOCAL REMINDERS!

IF WE CAN'T REACH YOU, WE CAN'T ALERT YOU!

Floods. Road closures. Gas leaks. Boil orders. Other emergencies. How will you find out about Village-wide emergencies and disasters?

The Village of East Dundee uses an Emergency Alert System to provide residents and businesses with information about local emergencies. Should an emergency occur, Village personnel can use the Emergency Alert System to notify and provide information to thousands of residents in a matter of minutes. Emergency Alert messages are automatically sent to all listed phone numbers in the Village, but what happens if you are not at home or if the power is out? By registering your contact information with our database you can have messages sent directly to your cell phone, work phone or email address to ensure you receive this important information.
