

ORDINANCE 14-02

AN ORDINANCE AMENDING SIGN REGULATIONS WITHIN THE VILLAGE OF WEST DUNDEE

WHEREAS, the Village of West Dundee, Kane County, Illinois, is a home rule municipality as contemplated under Article VII, Section 6 of the Constitution of the State of Illinois, and the passage of this Ordinance constitutes an exercise of the Village's home rule powers and functions as granted in the Constitution of the State of Illinois; and

WHEREAS, there is a significant relationship between the manner in which signs are displayed and the value and economic stability of adjoining property, and;

WHEREAS, the regulation of signs is expected to enhance the economic vitality of existing business and industries by promoting the reasonably, orderly and effective display of street graphic and encourage better communication with the public; and

WHEREAS, the Village Board has reviewed existing regulations and has heard requests of the business community and wishes to support business endeavors within the corporate limits; and

WHEREAS, comparable community research has been analyzed and the Appearance Review Commission has provided the Village Board with a recommendation; and

NOW THEREFORE BE IT ORDAINED BY THE PRESIDENT AND BOARD OF TRUSTEES, VILLAGE OF WEST DUNDEE, KANE COUNTY, ILLINOIS, as follows:

SECTION 1: That Title 9 Chapter 4 of the West Dundee Municipal Code shall be amended in its entirety as set forth in Exhibit A.

SECTION 2: If any section, paragraph, subdivision, clause, sentence, or provision of this Ordinance shall be adjudged in any Court of competent jurisdiction to be invalid, such judgment shall not effect, impair, invalidate or nullify the remainder thereof, which remainder shall remain in full force and effect.

SECTION 3: This ordinance shall be in full force and effect upon its passage, approval, and publication in pamphlet form which publication is hereby authorized as provided by law.

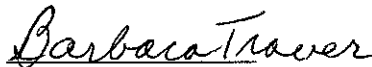

PASSED by the Board of Trustees of the Village of West Dundee, Kane County, Illinois, and approved by the President of said Village this 20th day of January, 2014.

9-4-1: PURPOSE AND OBJECTIVE

The purpose of these Sign Regulations is to preserve, promote, and protect the public health, safety and welfare, to preserve and enhance the physical appearance of the Village and to create an attractive economic and business climate by regulating outdoor signs of all types.

The main purpose of a sign is to help people find what they need without difficulty or confusion through the display of identification and information but not advertising. These regulations are established to prevent an overload of graphic message in the environment without restricting freedom of expression. They also aim to reduce advertising distractions to help business avoid the “canceling out” effect of adjacent signs.

These regulations establish standards for the erection, display, safety and maintenance of signs to encourage the general attractiveness of the community and to protect property values. They are intended to meet the following objectives:

A. Business Climate. It is recognized that signs are an economical and effective means of communicating information and are an important asset to most businesses. The continued health of business and economic activities shall be encouraged by the use of signs which:

1. Clearly and efficiently identify and classify the goods, services, facilities, and locations available to the community.
2. Express the identity of business activities or the proprietors associated with those activities.
3. Increase opportunities for planned developments to determine policies for private signage.

B. Effective Communication. A reasonable, orderly and effective display of signs is to be promoted by authorizing the use of signs, which are:

1. Legible in the circumstances in which they are viewed and in their surroundings.
2. Recognizable as a necessary means of visual communication for the convenience of the general public taken as a whole, as opposed to the convenience of any individual person.
3. Communicate an image or a message about a business or service.

C. Preservation of Village Character. West Dundee has a unique character and quality of style. Sign control is part of a broader program of comprehensive planning, scenic roadway enhancement, historic preservation, planned development, and property maintenance. Therefore, signs should:

1. Promote a cohesive and aesthetic environment to promote the character of the Village as a whole.
2. Minimize the blighting influences of visual clutter, decay, and neglect.
3. Protect the value and integrity of architectural resources and preserve the character of the buildings and sites to which signs principally relate.

9-4-2: DEFINITIONS OF TERMS

Access Connection: Roadways, shared driveways, frontage drives, shared access easements, interconnecting parking lots, or some other means which encourages indirect access and circulation to abutting properties.

Alteration: Any change of copy, sign face, color, size, shape, illumination, position, location, construction, or supporting structure of any sign.

Animation: The presentation copy on signs displayed in a progression of frames which give the illusion of motion, including but not limited to the illusion of moving objects, moving patterns or bands of light, or expanding or contracting shapes.

Awning: Any roof-like structure made of cloth, metal or other material attached to the exterior wall of a building and erected over a window, doorway, or wall which may be fixed and unable to be retracted or retractable to a position against the building.

Canopy, Entrance: A roof-like cover that projects from the wall of a building over an entrance which is attached to a building and supported from the ground up.

Canopy, Freestanding: A freestanding, projecting or detached, structure which provides cover above an outdoor service area, such as at a gasoline service station. A marquee is not a canopy.

Commercial Frontage: The linear footage of a lot facing a public street or access connection owned or leased by a person, business or enterprise intended for commercial usage. A building on an interior lot has one commercial frontage, while a corner lot contains two (2) commercial frontages. In no case shall there ever be more than two (2) commercial frontages for any one lot.

Copy: Any combination of letters, numbers, symbols or images which is intended to inform, direct or otherwise transmit information.

Copy Area: The area where any combination of letters, numbers, symbols or images intended to inform, direct or otherwise transmit information copy is displayed.

Display Area: The display surface area encompassed within any regular geometric square, rectangle, circle or equilateral triangle which would enclose all parts of the sign. For a wall sign where there is no defined sign background the square footage shall be determined by multiplying the largest horizontal width by the largest vertical height. The structural supports, trim or other ornamentation shall not be considered part of the display area if it is kept to a minimum to support the sign. If the structural supports are ornamental in nature and determined to be a **sign enhancement feature** and not part of the minimal support system, then these sections shall be considered part of the display. In the case of a two (2) sided sign or double faced sign where only one sign face is visible from each direction, the advertising display area of only one side (or the larger side if different) shall be calculated for the purposes of this chapter.

Erect: To build, construct, attach, hang, place, suspend, or affix and shall also include the painting of wall signs.

Face: The area or display surface used for the message.

Graphic Element: Any word, symbol, number, logo, or other pictorial representation that is used as copy.

Height: The vertical distance measured from the lowest adjacent grade to the highest point of the sign or sign structure.

Historic Area: Generally described as all properties with frontage on Main Street (Route 72) between the Fox River and Eighth Street (Route 31).

Illumination: Shall refer to any source of artificial light used to illuminate a sign, but may be divided into two (2) types:

A. Direct Illumination: Any source of artificial light either by means of exposed tubing or lamps on its surface or by means of illumination transmitted through transparent faces.

B. Indirect Illumination: Any surface which reflects light from a source intentionally directed upon it, such as: floodlights, gooseneck reflectors, or externally mounted fluorescent light fixtures.

Large Footprint Buildings: Commercial, industrial or office buildings with at least 30,000 sq. ft. of interior space.

Linear Frontage, building: That portion of building footage occupied by a single business tenant having a public entrance within a building.

Linear Frontage, sites: That portion of lot footage that parallels a public road.

Lot: A designated parcel, tract or area of land established by plat, subdivision, or as otherwise permitted by law, to be separately owned, used, developed or built upon.

Lot Quadrant: One of four sides of a lot when divided evenly horizontally and vertically.

Marquee: A permanent roof like projection above a theater entrance that usually displays a changeable message to provide details about a currently featured entertainer, film, play or similar performance.

Master Signage Plan: A signage plan for one or more properties with signs designed as an integral part of the site plan and architecture for the development or redevelopment of property.

Sight Triangle: A triangular-shaped portion of land established at street intersections in which nothing is erected, placed, planted, or allowed to grow in such a manner as to limit or obstruct the sight distance of motorists entering or leaving an intersection.

Special Event: An assembly or parade, mall attraction, merchant organized function, held on public or private property which is open to the public and/or where food and liquor sales would be permitted, and/or hours would be extended past dusk, and/or corporate sponsorship would be allowed.

String Lights: Electric lights connected by a strand and designed to be displayed on a temporary basis during holidays or festivals but not including all outdoor architectural or landscaping enhancement lighting which are part of a landscape or building elevation design and hardwired for permanent display.

Roofline: The highest edge of the roof or the top of parapet, whichever establishes the top line of the structure when viewed in a horizontal plane.

Setback: The minimum distance required between any property line and any portion of a sign or sign structure.

Shopping Center: Two or more separate businesses, utilizing a common parking area, and being under single ownership or control. The businesses may be in the same building or in more than one building, but must be located on the same zoning lot.

Signage Plan: A graphic representation showing a comprehensive detailed presentation of all signage proposed for a particular lot.

Sign Enhancement Feature: Any portion of a sign structure intended to improve or draw attention to the physical appearance of a sign including roofs, moldings, lattice, columns or other decorative features.

Structure: The supports, uprights, bracing, or framework of any structure exhibiting a sign, be it single-faced, double-faced, or V-type or otherwise.

Tenant Sign Criteria: Standards regulating features of tenant signage within a commercial center as determined by the owner or manager of the property.

Wall Area: The square footage of the front of the building or store unit, computed by multiplying the lineal frontage by the height extending from finished grade to the exterior ceiling line of the first story.

Zoning Lot: A parcel of land (whether legally described and subdivided as one or more lots or parts of lots) located within a single block, occupied by or intended for

occupancy, by one principal building or principal use and having its principal frontage upon a street.

9-4-3 TYPES OF SIGNS

Sign: Any surface, fabric, device, or display containing letters, words, pictures, designs or combinations thereof used to identify, inform, advertise, or promote the interest of any person, business, profession, product or service when the same is placed in view of the general public. Included within the definition of sign are the following types of signs:

Abandoned Sign: Any sign that no longer identifies or advertises a location, product, or activity conducted on the premises on which the sign is located.

Advertising Sign: Any sign which directs attention to a business, commodity, service, or entertainment not exclusively related to the premises where such thing is located or to which it is affixed.

Awning Sign: Any sign with copy mounted, painted, or otherwise applied on or attached to an awning.

Balloon or Inflatable Sign: Any airborne floatation device sign that directs attention to a business, commodity, service, or entertainment conducted, sold, or offered.

Banner Sign: Any sign with or without copy, characters, letters, illustrations or ornamentations applied to cloth, plastic, or fabric of any kind but not including streetscape banners attached to municipal street lights or poles.

Bench Sign: A seat or back of a seat with copy placed on or adjacent to a public right-of-way.

Billboard Sign: A sign, other than a permitted directional sign, which directs attention to a business, commodity, service or activity not conducted, sold or offered upon the premises where such sign is located.

Blade Sign: A vertically oriented wall sign affixed to and projecting from the wall and secured so movement does not occur.

Building Marker Sign: Names of buildings, dates of construction, commemorative tablets and the like carved into stone, concrete, or similar material or made of bronze, aluminum, or other type of construction and made an integral part of the building or structure.

Bulletin Board Sign: Any sign of a bulletin board nature setting forth or denoting the name of or simple announcement for any public, charitable, educational or

religious institutions when located on the premises of such institution.

Business Promotional Sign: A temporary sign announcing a special offer or discount as the main message of the sign.

Canopy Sign: Any sign attached to a freestanding canopy or onto an entrance canopy.

Car Sign: Any sign, not including license plates, painted on or attached to a vehicle parked in such a manner to function like a sign as to direct attention to a business, service, commodity, or entertainment that is located on the premises or in the near vicinity of the premises. Signs on vehicles used for transporting people or materials in the normal day-to-day operations of the business shall be exempt when such vehicles are parked on private property in a designated parking space servicing the business and being no further than 300' from its main entrance.

Changeable Copy Sign: Any sign that is designed so that characters, letters, or illustrations can be changed or rearranged without altering the face or the surface of the sign. Changeable copy signs can be divided into two (2) types:

A. Electronic: A series of individual light bulbs, when programmed and lit, form letters, words, phrases, numbers or pictures that compose an advertising, announcement, or other type of message. The message itself can be changed from a remote terminal without otherwise altering or changing the face of the sign.

B. Manual: A series of plastic, metal or other type material letters that are manually arranged to form letters, words, phrases, numbers or pictures that compose an advertising, announcement, or other type of message. The message itself can only be changed manually by rearranging the components on the sign itself, without otherwise altering or changing the face of the sign.

Civic Event Sign: A temporary sign posted to advertise a civic event sponsored by a public agency.

Construction Sign Site: Any temporary sign erected on the premises during the period of active construction, alteration, or repair displaying only information about the development and the names of architects, engineers, contractors or similar information.

Construction Sign Public Roadway or Utility: Any sign erected on premise or offsite during the period of active roadway or utility construction or repair. Such signs shall be used for the purpose of wayfinding to promote safety of pedestrians and motorists.

Contractor Signs: Temporary signs of contractors or artisans displayed during the period such contractors or artisans are performing work on the premises on which

such signs are displayed.

Development Identification Sign: A sign which, by means of symbol or name, but no additional copy identifies a shopping center, commercial area, industrial park, residential neighborhood or other planned development.

Double-Faced Sign: A sign constructed to display its message on the outer surfaces of two identical and opposite parallel planes.

Dilapidated Sign: A sign where elements of the display area or panel are visibly cracked, broken, or discolored, where the support structure or frame members are visibly corroded, bent, broken, torn, or dented, or where the message can no longer be read under normal viewing conditions.

Directional Sign: Any sign directing traffic movement. Examples of directional signs are; entrance/exit signs, handicapped parking, compact car parking, bicycle/motorcycle parking, drive-up window signs (excluding menu signs).

A single business may display a special event or promotional sign on a limited basis. These signs can be vinyl banner signs or other permitted temporary sign material as approved by the building official. All signs must be wholly displayed on private property.

A. Number: Businesses are permitted four (4) promotional event signs and/or special event signs per year. Only one such sign is permitted to be displayed at a time for each business or zoning lot.

B. Duration: Promotions signs shall be permitted for fourteen (14) day periods. Display of any business promotional sign may not be sequential; there must be thirty (30) days between the issuance of permits for such signs. An exception may be made for events or promotions held in conjunction with traditional National Holidays. Duration exceptions may be granted by the Village Board for signs in active public roadway or utility construction zones.

C. Size: Promotional banner signs may not be larger than sixteen (16) sq. ft. (2' x 8' preferred). Other signs are limited to thirty two (32) sq. ft. (4' X 8' preferred).

D. Location:

1. Banners: Banner signs must be affixed to the building walls in a non-projecting manner and may not exceed the height of the first floor of the building or twelve ft. (12') from grade, whichever is higher. Banners must be firmly secured with all four (4) corners pinned down. Banners may be secured to porch posts or railings only if the building official determines that no other area is feasible for display due to location of windows, doors, etc.

2. Other: All promotional business signs must be displayed on the elevation of the building with the store or business' main entrance or on the elevation of the building facing the public street. If not affixed to the building, signs must be within ten ft. (10') of the front elevation not blocking any ingress/egress point or line of site. Exact locations shall be approved by the building official. For businesses with changeable copy signs attached to the freestanding signs, no business promotional signs shall be permitted. For businesses within large parks and/or retail areas whose frontage is not located adjacent to a public street, signs may be placed in common areas near to or secured to park or shopping center signs. Only one such sign is permitted at a time with landlord/owner approval.

Canopy Signs: Shall only be used to identify the place of business and street address and shall be placed only on the slope sections of the canopy. No part of the canopy sign can extend above or below the canopy itself and shall not overhang the public right of way.

Changeable Copy Signs, Electronic and Manual: Must be incorporated into freestanding signs used for identification of an establishment. The changeable copy section shall not occupy more than 25 percent of the copy area and shall be in proportion to the entire sign and shall have similar treatment so it is integrated into the sign face. Changeable copy signs are not permitted as wall or window signs.

Electronic changeable copy signs are also subject to the following regulations:

A. Display Area:

1. Electronic background and text colors must be a color already present in the sign design unless alternative colors are approved by the exception procedures. White and Ivory numerals and letters and solid, dark

backgrounds are encouraged. Intense backgrounds of red or yellow are discouraged.

2. Electronic copy may not flash, blink, fade, scroll or roll or have any type of continuous movement. Intensity of illumination shall be adjusted to coincide with natural light conditions
3. Copy must be of a non-moving persistent nature with a single message displayed for at least 10 seconds.

B. Permitted Locations:

1. Changeable Copy, Electronic Signs are allowable for Fuel Station Price Signs at service stations in all areas of the community except for the historic area. Such signs are subject to the display regulations above but the fuel price must be a non-moving display at all times.
2. Changeable Copy Electronic Signs are permitted in certain areas according to the size of the site measured by linear footage as follows:
 - a. Mall and Mall Surrounding Area: For single buildings, shopping centers or planned developments with linear footage of 500 ft. on a single roadway.
 - b. Route 31 Commercial Area: For single buildings, shopping centers or planned developments with linear footage of 500 ft. on a single roadway.
 - c. Randall Road Area: For single buildings, shopping centers or planned development with linear footage of 1000 ft. of linear frontages.

Construction Signs Site: All construction signs shall be removed before an occupancy permit is granted.

Construction Sign Public Roadway or Utility: All signs shall be removed at the completion of the public project.

Directional Signs: Directional signs may be erected in addition to the permitted number of freestanding or wall signs. No directional sign shall be larger than three (3) sq. ft., and if freestanding, higher than five ft. (5') and may not contain a logo or advertising.

Directory Sign: Such signs shall include sign panels listing the names of the tenants or the occupants of a building or group of buildings and may also indicate

their respective professions or business activities. Directory Signs may be incorporated into identification signs for a development.

Fuel Station Price Sign: Electronic and manual fuel station price signs are subject to all rules for changeable copy signs.

Ground Signs: Shall be integrated into landscape features with the bottom of the copy area no higher than twenty four (24) inches from grade.

Identification Signs: Identification Signs shall identify the establishment where the sign is erected by displaying the name of the business or building with other advertising kept to a minimum.

Menu Sign: Menu signs shall be permitted only in conjunction with drive-up window lanes, and shall be allowed in addition to the other permitted freestanding and wall signs. All menu signs must be at least twenty five ft. from the public right of way.

Monument Sign: Shall be integrated into landscape features and be taller than wider.

Neon Signs: Neon tubing as an inside window or door signage treatment is allowed when such tubing is for the business name, instructional purposes, logos, graphics, products or services. No outlining of windows or doors with tubing is allowed. Window sign coverage regulations apply in totality.

Not For Profit Organization Signs: Not for profit organizations, clubs, and churches shall be allowed a no fee permit for display of temporary signs on private property. Such signs shall not to exceed thirty two (32) sq. ft. in area, not to be displayed longer than fourteen (14) days and in conformance to the setback requirements for the location installed. There shall be a limit of two (2) such signs displayed at the same time on any premise. If a permanent changeable copy sign exists on the premises, the number of signs shall be limited to one. Signs for any one event or promotion may not be displayed again until thirty (30) days after removal. Signs may be permitted on public property with village manager approval.

Portable Sign: Portable signs shall only be permitted as temporary signs when permitted by this ordinance or by the village board for promotional purposes but may not be used as permanent signs for businesses.

Projecting Sign: Shall not project more than 4' from a building wall.

Real Estate: Real estate signs may be freestanding or wall mounted. All real estate signs shall be removed within five (5) days after the sale or rental of the property. No real estate sign or construction sign shall be illuminated.

Special Event Signs: A temporary sign permit shall only be issued in conjunction with Special Event Approval as defined in section [3-8-1](#) of this code.

Wall Signs: Include blade signs, projecting signs and awning signs when used in place of traditional wall signs. The wall sign shall not extend beyond the top ends of the wall surface on which they are placed. Wall signs shall not project more than twelve inches (12") from the building wall surface or facade. If a wall sign projects more than twelve inches (12") from the wall, it shall be deemed a projecting sign.

Window Signs: Temporary: Temporary window signs above the first floor shall be allowed when the upper floor is occupied by a tenant. Such signs shall not cover more than fifty percent (50%) of the total glass area of the second floor facing the street.

Window Signs: Permanent: Window signs painted on, or attached to, or placed behind a window shall not cover more than fifty percent (50%) of the total glass area of the first floor facing the street. Window signs cannot be off-premise and must be displayed only in windows that the tenant occupies. No window signs shall be permitted for individual tenants in a multi-story or multi-tenant office building.

All signs must comply with the appearance review code appropriateness criteria as outlined and defined in Title 9 Chapter 6 appearance review code of the code of ordinances as follows.

A. The design, color and placement of signs shall be appropriate to the structure, site and adjoining property in terms of materials, height, and setback from the street and the sign's scale in proportion to the structure.

B. Where appropriate signs should complement the architectural style of the building and should be designed as an architectural element of the building or district.

C. Colors and materials should be restrained and in harmony with building and site; excessive brightness and bizarre colors shall be avoided.

D. Graphic elements, colors and type and size of fonts on the sign should be legible and held to a minimum to convey sign's major message. The major message should be identification of the business or general profession not advertising product or service specifically therefore the emphasis should be on the business name, display of phone number, address and web address are discouraged.

E. Signs should be compatible with signs on adjacent premises, not designed to compete for attention.

F. Landscaping around freestanding sign is encouraged to create visual interest at grade level for both the pedestrian and the motorist.

In addition, the following shall apply within the historic area

G. Awning signs and monument signs are encouraged; neon signs discouraged unless appropriate to the architectural style.

H. Direct illumination signs shall be prohibited.

9-4-10 CONSTRUCTION SPECIFICATIONS:

A. Sign Strength: Any "sign" as defined in this chapter shall be designed and constructed to withstand a wind pressure of not less than thirty (30) pounds per square foot of net surface area; and shall be constructed to receive dead loads as required by the village building code and other municipal ordinances.

B. Sign Placement: No sign shall be erected or maintained in the site triangle or at a location that will obstruct ingress or egress, obstruct motorist or pedestrian vision or interfere with utility clearances above or below ground.

C. Sign Illumination: All illuminated sign must comply with the applicable provisions of the National Electrical Code as adopted by the village and shall display a label, depicting the name of the producing sign company, date of manufacture , and voltage. Indirectly illuminated signs shall not have their light source beam upon any street or into any residential area.

9-4-11 PERMITS REQUIREMENTS

A. Permit Required: It shall be unlawful for any person to erect, alter, relocate, or maintain within the village of West Dundee, any sign without first obtaining a sign permit from the Community Development Department and making payment of the required fee. However, the following maintenance activities do not require a sign permit:

1. Changing the copy on a changeable copy sign
2. Painting, cleaning and other normal sign maintenance including the replacement of broken sign panels with another panel of the same copy and color.

B. Application Data: Application for the sign permit shall be filed by the owner of the sign or his agent, with the community development department. Applications are available on the village website or at the community development department. Supplemental information that needs to be submitted with a completed sign permit application if applicable includes:

1. Accurate Plat of survey with sign dimensions and placement of sign indicated.
2. A color shop drawing depicting plan specifications including construction detail, electrical features, dimensions, color of all components and height above grade,
3. Details on the sign copy including colors, typeface, letter spacing
4. A sketch or photo of the building facade or site showing the sign attached or erected.
5. Landscape plan for area adjacent to sign.

C. Sign Permit Fees: The sign permit applicant shall pay a fee according to the following schedule. This schedule includes a plan review fee but does not include an application fee for an Appearance review commission which may be required.

1. Illumination signs: Four dollars (\$4.00) per square foot of gross surface area of each face thereof.
2. Non-illuminated signs: Two dollars (\$2.00) per square foot of gross surface area of each face thereof.

D. Permit Duration: A sign permit shall be in effect for six (6) months after the date of issuance. If the work authorized under the permit has not been completed within the six (6) month time period, the sign permit shall become null and void. There shall be no refund of any sign permit fee required by this chapter.

E. Transferability and Revocation of Permits: Sign permits granted under the terms of this chapter are not transferable. The building commissioner or other designated official is hereby authorized and empowered to revoke any permit issued by him if the holder of the permit fails to comply with any provision of this

9-4-12: PERMIT REVIEW PROCEDURES

Upon receipt of the completed application, further information may be required to allow for review of the application and full compliance with sign ordinance provisions and all other laws and ordinances of the village.

A. Standard Review

1. Signs within Historic Area: Permanent signs within the historic area must be reviewed by the Appearance review commission for compliance with appearance review code criteria. The fact that a type of sign is permitted shall not mean that a particular sign is appropriate in the proposed location in the historic area.
2. Signs outside Historic Area: Signs outside the historical area can be reviewed and approved by the community development department if they are found to be in compliance with all provisions of sign regulations including appearance review code criteria and if they also meet the following additional requirements:
 - a. The business is a regional, national or international brand and use commonly recognized corporate colors and logos as part of an existing image policy campaign

- b. For ground signs, the sign has a landscape component to enhance the appearance of the sign, if applicable.
- c. The Copy Area of the sign does not have more than four graphic elements
- d. The sign is part of a preapproved development or tenant sign criteria.

Any sign outside the historic area that does not meet these requirements will be submitted to the Appearance review commission for review. The applicant is responsible for submittal documents and application fee for such review.

B. Exceptions to Standard Review

1. MASTER SIGN PLAN:

- a. Sign standards and provisions that differ from those permitted by the sign ordinance may be approved by the village board for annexations, planned development projects concurrently with the approval of a general development plan or sectional planning area.
- b. The size, number and location regulations for any sign may be altered pursuant to a development or redevelopment agreement or a memorandum of understanding when the village board deems it necessary to promote the economic development goals of the village.

2. SPECIAL EVENT SIGNS: Any sign including a prohibited sign may be permitted only on a temporary basis as part of a special event approval granted by the village board as per Title 3 Chapter 8 of the village code of ordinances and when the village board determines that the additional signage is needed for the success of the special event.

9-4-13: APPEALS AND EXCEPTIONS:

A. Appeals: Any property owner or his agent may appeal any administrative decision relative to any of the provisions of this chapter. The village board shall hear all such appeals.

B. Exceptions: Any property owner or her agent may request an exception to these sign regulations. The appearance review commission shall hear all requests for authorized exceptions. If the requested exception is not an authorized exception as

listed herein, then the request for exception will be processed as a text amendment before the village board of trustees.

1. **Petition for Exception:** The property owner or his agent seeking an exception shall make application for appearance review and sign ordinance exception consideration by completing an application for Appearance Review Appropriateness Approval on forms provided by the community development department and also available on the village website. All application procedures for applying for appropriateness approval from the appearance review commission as outlined in Title 9 Chapter 6 of the village municipal code.

2. **Eligibility for Exception:** All requests for exception must meet the following eligibility criteria:
